## Our Services

We're committed to providing cost effective and high-quality security solutions delivered by professional and reliable security personnel.

We recruit the best, train to the highest levels and deliver on all assignments. Thanks to our customer focus and 'can-do' attitude we've developed a wide range of security and support services from guarding to event security and close protection to door supervision, even looking after your property and assets.

VIP Security Services is proud to have been awarded the highest status in the UK from the government's Security Industry Authority (SIA) Approved Contractor Scheme (ACS). The Approved Status means that VIP Security Services operate at the highest levels within the private security industry.

We have also been given an approved Safe Contractor status, which proves we comply with stringent health and safety standards.

We're proud to have also been awarded Silver certification from Construction Line, which ensures our staff and services are suitable for all construction based security projects.

VIP Security Services has always been passionate about supplying the best service on offer, which is why we've also signed-up to the government's Trading Standards 'Buy with confidence' scheme, and the Community Safety Scheme, which gives members of the Public reassurance and confidence in purchasing services knowing that VIP is fully transparent and accountable.
